SEASON 2011

WORLDELUXE came about through an idea that three friends had, travellers with a fine ear for current trends. It arose out of their observations and their desire, which became a need, to create a network of exclusive holidays in two very special places that allow you to discover a hidden, extraordinary and extremely private Italy. This Italy is far from the usual destinations, but no less fascinating as a result, and is shrouded in the mystery of places still unfamiliar to the main tourist routes.

This is an opportunity to discover hidden corners of Italy, through the charm and warmth of splendid private homes and historic houses which have preserved the attractive atmosphere of the past combined with services, comfort and staff who let you experience holidays in luxury and relaxation.

By choosing us you are sharing a concept of exclusivity and privacy, together with an international standard. You will experience the real Italy, with its long tradition of fine living, its passion for hospitality and the splendours of a bygone age. It is a typical, rural Sicilian house named “palmento”. It is located in the middle of the beautiful Noto Valley and close to the villa we can find the city of Noto, a supreme example of the Sicilian Barocco. The front view of the house instead presents a view that shows the sea, in particular the wonderful natural reserve of Vendicari and its beautiful beaches.

The property is made of a main structure of 200 m², a smaller annexed one of 50 m², both recently restructured, and 9 hectares of well farmed land.

The main building is intended as the main sheltering area, restructured by the owners with incredible taste and made of two bed rooms, a bathroom, a large living room with a fireplace and a marvelous kitchen.

The outside is kept particularly well as it presents a large series of extraordinary local plants displaced with particularly good taste.

There are also well maintained outdoor areas which include a nice courtyard-like zone in the back where it is possible to eat in the warmest hours of the day and an annexed structure that includes a solarium.
